## Most vs. Least Suitable Ecological Sites in Columbiana

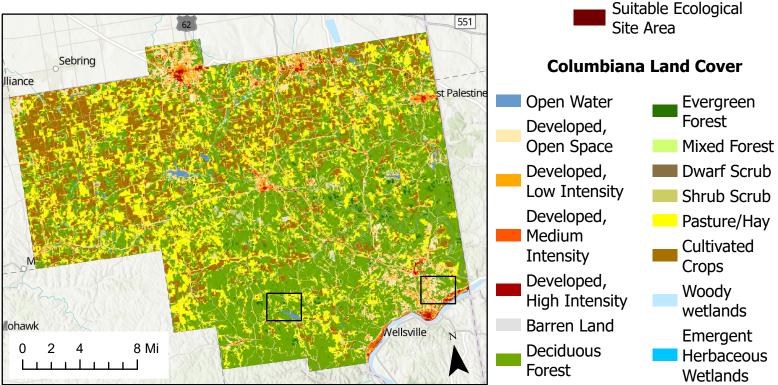

Suitable Ecological Site Area

The least suitable ecological site chosen (right) is an area labeled Thompson Park on the Basemap. This site was identified because it has a small amount of suitable ecological site area, is near/surrounded by developed area, and is close to a major highway.

The most suitable ecological site chosen (left) is an area labeled Highlandtown Wildlife Area on the Basemap. This site was chosen because it has a large amount of suitable area, is adjacent to a lake and several streams, has a large forest area, and is far from development and major roads.
